

HAND GESTURE CONTROL GUIDE

Simple Hand Signals For In-Person Participants

QUICK TIPS

- ✓ Ensure camera has a clear view of the hand signal (either hand)
- ✓ Hold the hand signal for approximately 3 seconds; once successfully detected, a green light will blink on top of the camera
- ✓ Ensure you are looking at the camera while performing any hand signal
- ✓ If a hand signal is not detected, remove your hand from view and try again

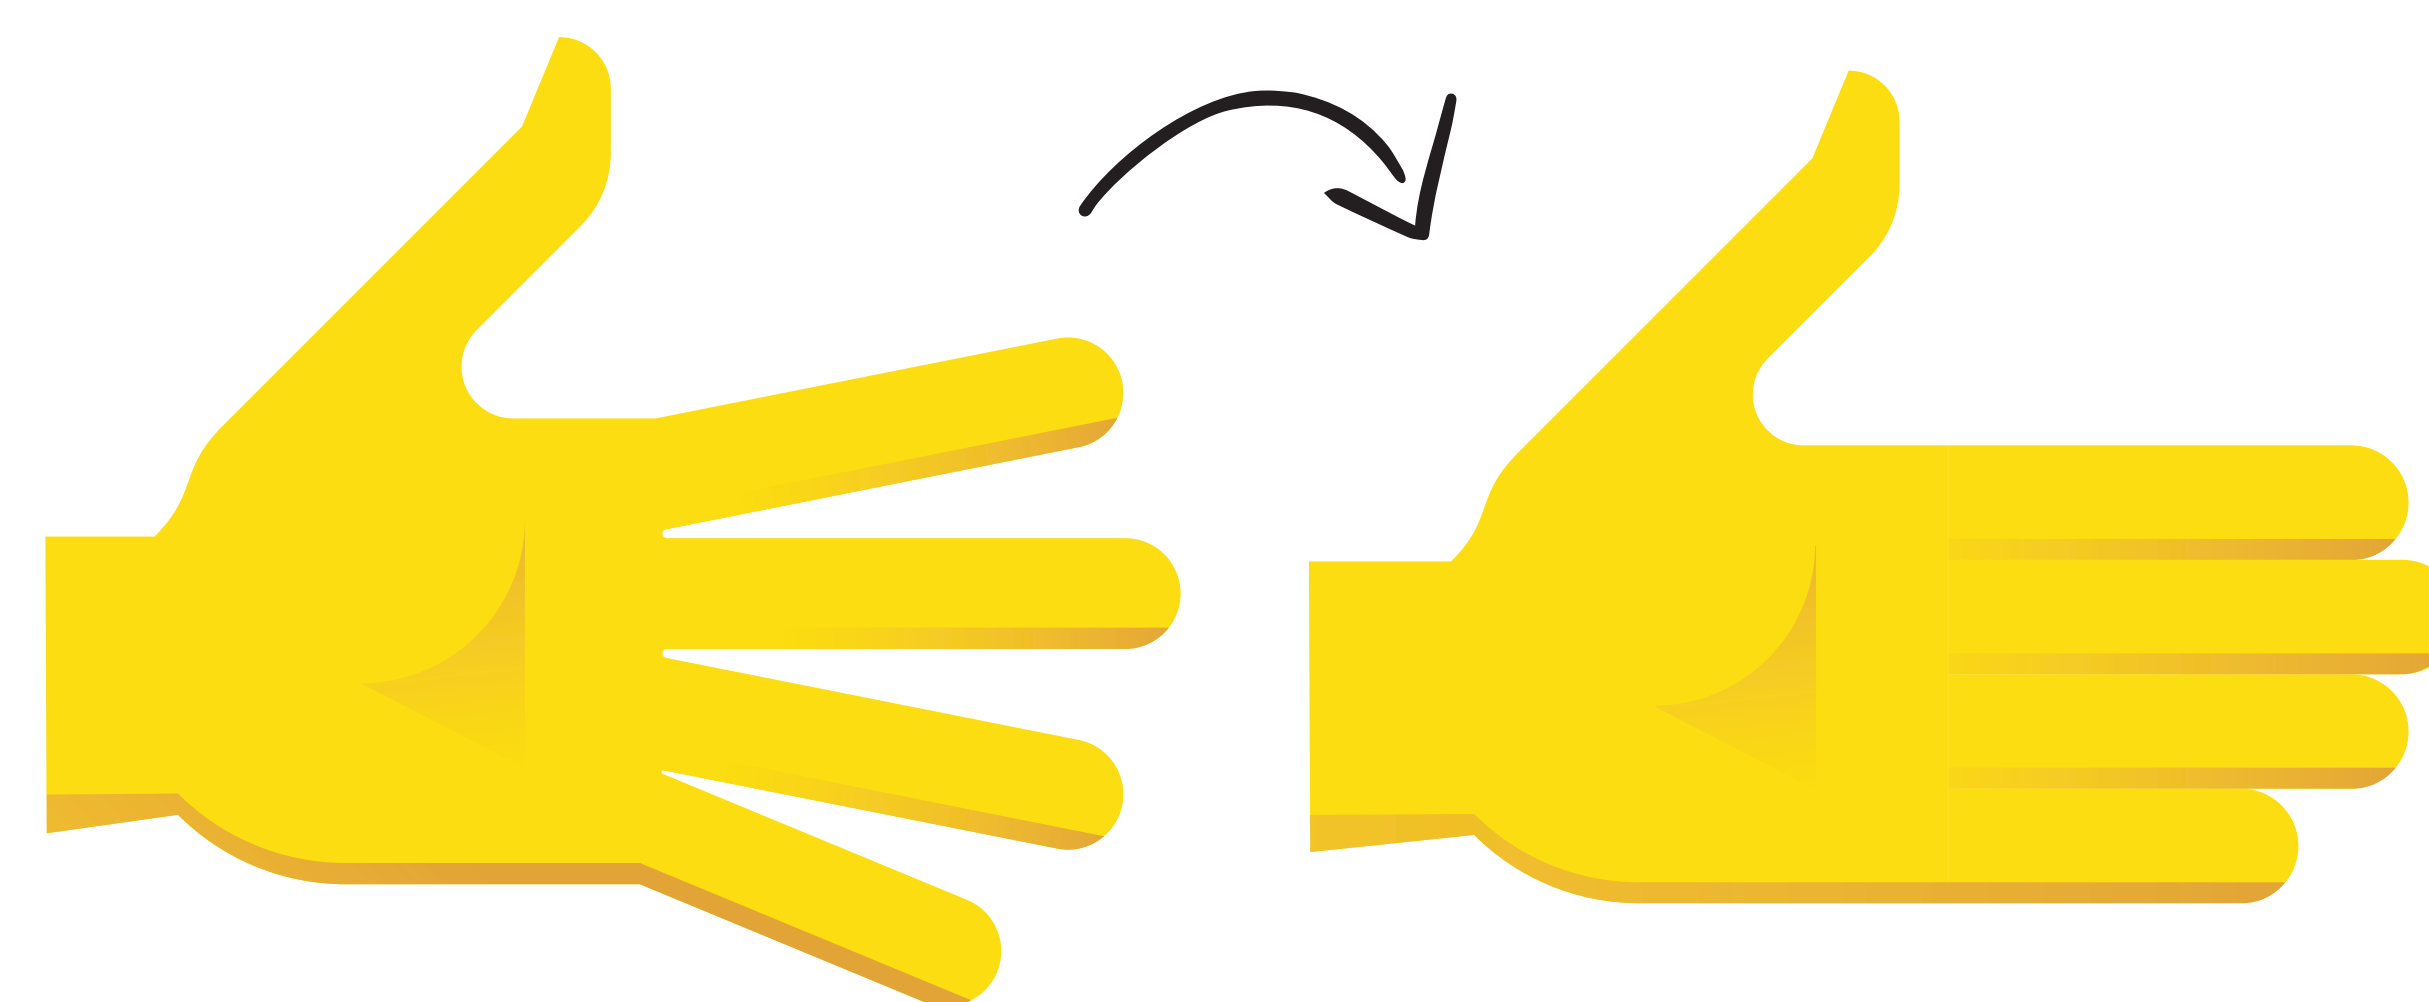

Using AMLOS to collaborate with a hybrid team? Let us give you a hand!

START MEETING

Make a thumbs-up sign next to your face to launch the meeting

SPOTLIGHT

Place an open-faced palm in front of the area you want to spotlight

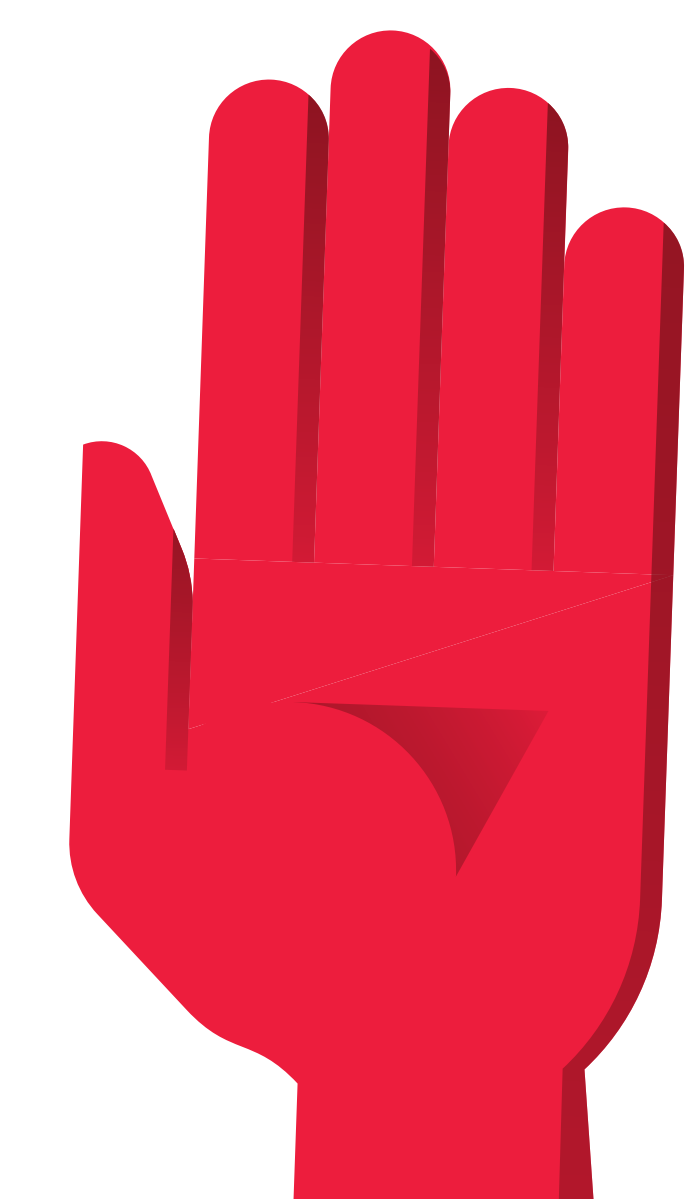

- 1 Ensure your fingers are spread apart. A green light will confirm detection.
- 2 Then, close your fingers until the green light blinks.
- 3 Quickly remove hand from that area and AMLOS will take the photo.

CAPTURE WHITEBOARD

Move away from the whiteboard & form a C-shape next to your face - AMLOS will take a snapshot

STOP MEETING

Hold an open-faced palm next to your face to end the AMLOS meeting
